

## Module 21 Quiz:

# CPU vs GPU-accelerated Data Science

1. RAPIDS supports and accelerates end-to-end data analytics.

- A. True
- B. False

Answer: A

2. RAPIDS's syntax is similar to commonly-used Python libraries (e.g., Pandas).

- A. True
- B. False

Answer: A

3. RAPIDS can only be used on multi-GPU servers.

- A. True
- B. False

Answer: B

4. cuDF provides pandas-like API.

- A. True
- B. False

Answer: A

5. CuPy provides numpy-like API.

- A. True
- B. False

Answer: A
